\$295,000

Positioned up a quiet country road, this 36 acres (14.68 Ha) of native bush property is well tucked away providing great seclusion and privacy from the outside world. As you arrive, there is a track and parking area. One track leads you to the remnants of an old bush shelter and the other track leads you to a spring dam. There are gorgeous man ferns, gardens and fruit trees. Create your own bush walking tracks through the beautiful tranquil surroundings, with your own private native wildlife sanctuary including Tasmanian devils, wombats, echidnas, eagles and native birdlife. The trees are mostly stringy bark gums with patches of towering Blue Gums, there is a lot to explore here especially deep in the gorgeous bushland. Please don't hesitate to contact Jordan Phillips for more information or to arrange a meeting on-site. Rates \$700 approx. pa
