\$420 Per Week

This 2018 build 1 bedroom unit has plenty of space and quality finishes. Through the front door you enter the large living space with access that leads off to the master bedroom and bathroom, with the excellent kitchen located at the opposite end. A full kitchen is a great aspect of this unit, many similar properties will have a smaller kitchenette, but this unit has a complete kitchen with more than enough storage and bench space. Add in the quality appliances, including a dishwasher, and you have a perfect home for a single person or couple. A very good-sized bedroom with built in robes will easily fit a queen size bed with room to spare and an ensuite. There is separate toilet making sharing the amenities with guests much easier than via an ensuite. To round out the internal features is a European styled laundry closet that includes a basin and can accommodate a washer and dry. There is no need to gain access to the unit through the main gate as it comes with its own separate driveway and single secure garage. A small private front courtyard is also included to create the feel that the unit is separate from the main building. Main Features:- 1 Bedroom with BIR- Large living area- Full Kitchen with quality appliances- Separate Bathroom with quality fittings- Separate Toilet- European styled Laundry closet- Split system A/C- Separate driveway entrance- Single secure garage- Front Courtyard- Security Alarm Do not miss out on making this unit your new home, so ensure you attend one of scheduled viewings or call Raine&Horne Midland on 9274 0111
