THE DEAL: Expressions of Interest

THE DEALDesigned with a monochromatic palette, this home provides the perfect canvas for personalisation. As you enter through the character façade, you're immediately walking into the heart of the home with soaring ceilings opening the space for the combined kitchen/dining and living area. A neatly tucked away theatre room, creates an effortless space to retire after the evening's meals. A sleek space saving European laundry is located at the base of the staircase with shoppers' entry directly across for secure access into the home. Approaching the first level after ascending the powder-coated stairs with textural accents, you will find 3 bedrooms on this floor which could also be configured to have one of the rooms being a dedicated study/working from home space. Then where the views really come together, your master retreat commands the top floor with ensuite and full height glazing to flood the room with natural lighting. Filled with features designed to streamline a contemporary lifestyle, industrial light fittings, integrated refrigerators and built in barbecue in the alfresco. SEALS THE DEALFrom the character appeal of the street - to the contemporary executive design and of course your own private rooftop terrace... this home makes sense on so many levels.
