Here is a comfortable home that you can afford, and with some of the creature comforts you deserve. The flooring has been professionally updated by using quality materials with an on-trend colour palate, while the kitchen and bathroom have been refurbished, and the windows have been fitted with block-out as well as translucent window furnishings. Both bedrooms have built in wardrobes and are in close proximity to the family bathroom and a separate toilet. With a single remote garage and only 2 homes on the block, the home also has a low maintenance yard, and the rear is particularly private and fully fenced for your security. In short, the home has been very well maintained by the current owners, and it is ready for hand-over to the next owner to stamp their personality into the property. Representing an opportunity for you to secure a quality, yet affordable entrance into the home market, we need to show you through so that we can plan how to make the home yours. Please book your inspection to come and take a closer look because we believe that this property is sure to impress.
