This street-fronted townhome, completing in 4 weeks, is designed and built by M3, known for their meticulous standards. The collection features four outstanding townhomes, each with two bedrooms boasting private ensuites, a spacious courtyard, and a single garage. Drawing inspiration from classic architecture, these homes showcase a simple gable roof and prominent porches, creating a harmonious blend of geometry and symmetry. The interiors are elevated by a 900mm Smeg oven and Smeg appliances, ensuring top quality, including timber floorboards. The addition of feature brickwork and a carefully chosen material palette lends a modern flair. Situated at 158 Purinuan Road, this development embodies the distinctive charm of Reservoir, offering eye-catching street appeal and unparalleled quality.
