This one bedroom property is a must inspect; with public transport at the front door and a stones-throw to the Chapel Street café strip. The property is on the ground floor, it has a separate kitchen with gas cooking and room for a meals table, there is new carpet in the good sized living area and large bedroom. There are built in cupboards in the bedroom with extra storage in the hallway while the bathroom features a shower over bath and washing facilities. Freshly painted throughout this one will not last long.
