I was beyond taken when I arrived at this location, in particular at this very inviting property. I felt as though I was walking into a builders display home. Whether inside or out in the manicured landscape, you will definitely enjoy coming home here. You will see our main bedroom is separate from the other two Bedrooms, your kitchen, dining and lounge is open plan, opening north to the sun. Winter here is very comfortable indeed, as it is in summer also. You have great natural light, excellent air flow, the home is well insulated, you have reverse cycle air conditioning, quality quiet ceiling fans, goodness I'm thrilled to have such a listing to share with you all. Our yard is fully secure, the front yard is screened on the eastern side to clearly define your beautifully manicured landscaped yard. Outdoors there are great places to plant yourself comfortably to read a book or in this hot weather we are having, private enough to sit under your sprinkler, install a wonderful spa even. Now that is a fabulous idea. The remote Garage has direct access into the residence, we have security screens all around, a rainwater tank and more. If you crave that something that feels brand spanking new, then this property is for you. Three Bedrooms in all, the main with ensuite and abundant robe space, Bedroom 2 and 3 also have excellent robe space for you. A haven of happiness awaits you here. Come home to your very own, private, comfortable escape from the World.
