This one-bedroom unit sounds like a cozy and convenient living space! The modern kitchen with its electric oven and cooktop must make cooking a breeze. Plus, the built-in robes in the bedroom provide good storage space. The split system for heating and cooling ensures comfort throughout the year, and the combined bathroom/laundry is a practical use of space. For those interested, it's great that you offer both 6-month and 12-month lease options. And while it's unfortunate that pets aren't suitable for this unit, it's understandable given the space constraints. Including water usage and general garden maintenance in the weekly rent is a fantastic bonus! It adds value for tenants knowing that these aspects are taken care of, making the rental experience more convenient and hassle-free. It's also a nice touch to ensure that the common areas at the end of the unit block are well-maintained, contributing to a pleasant living environment for everyone in the complex. Overall, with the added perks of inclusive water usage and common area maintenance, this unit becomes an even more attractive option for potential tenants seeking a comfortable and hassle-free living space. Sending an online inquiry for an application form or apply online. It's convenient for potential tenants to get all the necessary paperwork through email. Overall, this unit is a comfortable and practical living option for someone looking for a one-bedroom space with modern amenities.
