Offers over \$330,000

Featuring a practical floor plan this unit would be ideal for a young couple looking to enter the property market, a retired couple looking to downsize, someone looking for an affordable income producing Airbnb or as a permanent rental. Recently refreshed with new interior paint and carpets this house is ready to live in 'as is'. Unit 1 / 28 Henry St features a main entrance, 2 bedrooms, 1 bathroom with separate toilet and a large open plan living, dining and kitchen zone acting as the central living area. Large windows spill natural light into all rooms and the kitchen features an oven and dishwasher with plenty of bench space and room for a large free-standing fridge. It also features an undercover carport with direct access to the unit through a sliding glass door. A small, covered 'al fresco' or BBQ area opens off the main living room with access through sliding glass doors. A rainwater tank sits at the back and would be perfect for watering any new garden or veggie beds the new owner may want to put in. This unit is a short walk to cafés, hotels, post office, IGA supermarket, medical services, school, marina and a number of active community groups. Please book your private inspection with Greg via email or phone as we expect this unit to attract considerable interest.
