Encompassing 270-degrees of some of King Island's most famous views, this 4529m<sup>2</sup> property sits high on Devils Gap. The opportunities are only limited by your imagination as to what could be built on this block (STCA) which overlooks the fishing boats in Currie Harbour, the magnificent lighthouse, all the way down the west coast to Cataraqui Point. Turn your head ever so slightly and you will be mesmerised by the wild Great Southern Ocean and its ever-changing rugged glory.
