\$749,000

With a commanding street presence and views to the ranges and beyond, this expansive three bedroom unit is loaded with impressive features. The spacious lounge room is filled with natural light, the perfect place to relax or entertain. Three well-proportioned bedrooms offer comfort and style, all feature built in storage, while the main bedroom is a true stand out for its remarkable size and private en-suite that adds a touch of opulence to everyday living. The modern kitchen boasts loads of storage space and gas cooking while the flooring in the living areas has been recently replaced. Air conditioned living spaces add that extra touch of comfort. On the lower level of the home you are met with a huge rumpus room, this space could be transformed into a granny flat (with plumbing in place), work from home space or studio. The double garage is oversized with extra workshop/storage space and the large backyard has its own garden shed to tinker in. All of this is in a prime location with stunning panoramic views that elevate the overall living experience, only a short drive to the local shops, parks and schools.
