On the ground floor of a boutique 1960's building, this single bedroom apartment's super-sized north facing proportions are certain to amaze first home, CBD base or single level lifestyle seekers. Yes, the size will thrill but even more so, in this quiet yet convenient location just a short stroll from the Junction's every amenity. High ceilings and expansive windows take full advantage of the northern aspect, capturing abundant natural light and leafy views in a large living room with adjoining home office/dining, an equally sizeable bedroom with a wall of floor to ceiling built in robes/storage and spacious ensuite, and even in the kitchen, updated with modern upright stove, laminate benchtops, extensive storage and meals area. One of eight in total, one of four that share the entry, this apartment includes split heating/cooling, hardwood floors, double blinds, an allocated secure lock up garage and a shared laundry space. Walk everywhere - to trams, specialty shops, boutiques, supermarkets, cafes, restaurants, allied health, medical and community services, the Camberwell Market, Rivoli Cinema, Camberwell Library, parkland and the list just goes on and on.
