Now, if a tranquil environment surrounded by wildlife and lush rainforest is what you desire OR if you're not too keen on sharing laundry facilities with your downstairs neighbor, this place is probably not for you. If, however, you're after an indie-chic apartment vibe with everything that Stratford has to offer literally just meters from your door, then this is it! - Fully furnished - 3 spacious, air-conditioned rooms - Updated central bathroom and kitchen - Meters to EVERYTHING You will no doubt notice there is some construction going on downstairs which will be the case for the next few months but once complete you're going to be at the very center of what will no doubt be one of Stratford's trendiest spots - Is it trendy to say trendy? Maybe I'm just getting old... This place is cool guys. Trust me... I was cool once. Still think I am tbh... (that's To Be Honest... icumi) Anyway - There's no parking so you'll have to find one on the street or at the Barron Hotel which is basically your backyard (I'll drink to that!) but with public transport once again just meters away, do you really need a car? Come and check it out for yourself at the open home - I'll see ya there! BOND \$2000 Available NOW
