Nestled in the highly-desired Caroline Bay district with modern finishes throughout, "Deux" presents this contemporary townhome design by White + Dickson architects and constructed by a reputable local developer. It showcases cutting-edge open-plan design, abundant natural light, and comfortable living spaces. Upon entering the impressive foyer on the ground floor, you'll be captivated by the phenomenal design. On this level you will find an elegant kitchen with Miele appliances, a well-proportioned living area, and a separate dining space with limestone flooring. This area opens up to a private and uniquely designed outdoor space, perfect for enjoying refreshing breezes while gazing out onto the courtyard and the meticulously landscaped gardens by Michael Cook. The feature staircase connecting both levels boasts an industrial-style glass-encased wine cellar underneath. The thoughtfully designed bedrooms are all on the upper level, along with the bathroom. Two of the bedrooms feature built-in closets, while the primary suite includes a walk-through wardrobe and a sophisticated ensuite. Additionally, there is a parents' retreat/media room or a potential fourth bedroom on this level. Other notable features include central air conditioning, elegant lighting throughout, Caesarstone countertops in the kitchen, a guest bathroom on the lower level, and an automatic double garage with internal access. Buyers will appreciate that there are no strata fees; they simply share the building insurance with the neighboring unit. Outstanding schools, such as Gosford East Public School, Saint Patrick's Catholic Primary, Saint Edward's Catholic College, and Saint Joseph's Catholic College, are all conveniently located within walking distance.
