**\$575,000**

100 acres of grazing country 6km east of Goomeri. This property is mainly low undulating, rising back to a high ridge where the perfect house site sits. Electricity runs right to the house site. There are three dams and an unequipped bore (water level approx.8/10 feet below ground level at present). The timbered country consists of mainly Broad Leaf and Narrow Leaf Iron Bark. A carrying capacity of approximately 12 breeders or 20 backgrounders. The property is fenced on 2 sides and split posts are supplied to finish the job. All in all, a beautiful block to build your dream home on the hill and share the tranquility with the birds, deer, kangaroos, koalas and wild deer.
