\$870,000

Stairless living at it's very best on a corner block. Concrete pad with side access for the boat or caravan. This home has one of my favourite floorplans. Master walk-in robe, ensuite at the front, with formal lounge and dining. The galley style kitchen is the heart of the home for easy entertaining, overlooking an open plan dining/lounge with a third large living area tucked away, which is always the hero of the design. A sun filled space overlooking the fully fenced pet friendly yard and outdoor BBQ area. Three big bedrooms with primary bathroom at the rear creates private space for the guests. Extra height roller doors, internal access and a list of features that will impress. Retirement doesn't always mean downsizing, this is the low maintenance, lock up & go, with room to move. Fact sheet available on request
