\$745 pw

In a prime location, with plenty of public transport available is this delightful double-fronted federation style home. Inside the wide central corridor are three massive bedrooms, one with air conditioning, and a huge open-plan living/dining/kitchen area. The bathroom is at the back of the property, that include a separate WC. Outside, there is remote controlled entrance to the property, remote controlled double garage for two cars, external WC, undercover clothes line and enough space to plant your own veggie patch. The property is serviced by gas central ducted heating, AC units in one bedroom and another in the living room, and has polished floors throughout.
