Eye-catching features, vibrant spatial design and layout are a collaboration of style that takes living to new heights. The Springbrook design, by G.J. Gardner Homes, will encourage you to make use of living spaces to suit every member of your family, such as the media room and separate kids zone. The open plan living area including the kitchen, dining room, family room and a rumpus room envelop a central alfresco providing plenty of room and a flowing space to entertain your family and friends. The master bedroom and a media room are located at the front of the home creating a quiet retreat for parents. The remaining 3 bedrooms are located at the rear of the home, connected by an open activity room, a great space for a children's zone. Whether you want private time or to come together to entertain, you will appreciate this choice of design prepared with your family in mind. Allow yourself to imagine the lifestyle you've always wanted, in the home you deserve! The Springbrook Express design offers individually crafted facades that will inspire you by providing a choice of homes that reflect your personal lifestyle and preferences. For optimal site use, this design is best positioned on sites with the north aspect towards the side of the home, providing sustainable and comfortable living conditions throughout the year.
