\$870,000

Forget the problems and stress of building a new home. Here's an opportunity to purchase this stunning family property and to move straight in. Built in 2021, the home is located in a new, family friendly estate surrounded by quality built homes. 4 spacious bedrooms, all with built-in robes & ceiling fans, with the main having walk-in robe, ensuite with dual shower, dual vanities plus separate toilet. Be impressed with the roomy open plan living with raised ceilings and central kitchen, which all flows outside through double sliding doors. The kitchen is stunning, with stone benchtops, gas cooking, butlers pantry plus dishwasher, all to please the home chef. For the growing family a separate media room enables another living area for the cinema room, kids play area or ideal for the home professional wanting a designated office. Entertain outside with the covered BBQ area which overlooks the fully fenced backyard. Plenty of room for the family pet, kids to play or place to start the veggie gardens/fruit trees. Being a corner block, the property has 2 street frontages, giving vehicle access into yard for future shedding or pool. So much to offer, this home is complete with fully ducted air-con throughout plus a large solar power system (20 panels) to help on electricity bills. This home is a must to inspect, and to appreciate all that it offers.
