Just one house separates this exceptional family home from The Strand, but nothing comes between its brilliant upstairs entertaining spaces and their views of boats on the bay and the city skyline beyond. The visual appeal offered by the location complements the calibre of the inviting modern proportions, including substantial downstairs living, dining and family room areas accompanied by the open-plan kitchen's dark granite surfaces, ample storage and stainless steel appliances. Above, the entertaining area, its bar and unforgettable terrace views deliver ultimate desirability! Up to four bedrooms and four bathrooms including a master suite with a balcony retreat are enhanced by a roof-space study and by an entirely self-contained studio apartment or work from home zone above the double garage. Decked alfresco dimensions define the elegant, low-maintenance backdrop to an address that has all the hallmarks of a fabulous forever home in an irresistible, irreplaceable position.
