\$1,750,000 - \$1,925,000

A delightful presence within one of Frankston South's most cherished locales, this original 80's architectural home welcomes large families with space and garden seclusion. With its magnificent proportions, timber features and immaculate original flair, the home invites instant comfort while teasing unlimited potential for contemporary refinement. Occupying a total of 2,601sqm (approx.) of land, the solid tri-level brick facade precedes a series of impressive spaces including a vast living and dining room with wood fire, a games room with bar, soaring ceiling heights, and a central modern kitchen with open meals area, and garden window. Linked via timber staircases, accommodation spills both top and bottom floors with a private master level comprising bedroom, parents' retreat, spa-ensuite and walk-in robe, and a ground floor accommodation zone complete with four robed-bedrooms, a family bathroom with dual vanities, rumpus room and a home office. Showcasing a beautiful pairing of slate, timber and glass, the home comes with gas ducted heating and split-system air conditioning, a double garage, boat/van park, stunning gardens overlooked by a large decked alfresco, balcony and covered terrace. A feeling of forever afar from life's chaos embraces a Frankston High and Derinya Primary school zone address where walking distance presents to Overport Park and a short drive takes you to Mount Eliza Village, Frankston Bayside and easy freeway access.
