Sparkling in presentation and located for family convenience, this stylish and modernly appointed home is big on practicality and low on maintenance, leaving your weekends free for leisure. And though it may be easycare, it certainly doesn't sacrifice space with four bedrooms, two bathrooms, open plan living plus formal lounge and dining areas. Summer will arrive early and leave late with a sapphire-blue in-ground pool forming the centerpiece of the backyard, and there is also a sheltered alfresco escape to be enjoyed year-round. An attached double garage and double driveway keep cars safely off the road, and the rear border is framed by towering gum trees, so your view will always be tranquil. Located on a peaceful no-through road with Fletcher Early Learning Centre a few metres away and Fletcher Village only 1800m from your new abode, it's easy why so many families choose to call Fletcher home.
