Some homes have it and some don't. This one certainly does! That certain something that makes it stand out from others. An interior that creates a relaxing and practical space for the family. Taking full advantage of the northerly aspect, it provides everything a family could wish for. Just look at what is on offer. * 2 spectacular living areas including a huge formal lounge room with wood and gas heating and split system air conditioning *4 bedrooms plus a study * 2 excellent bathrooms * attractive open plan kitchen positioned to all that goes on in the household *2 outstanding outdoor entertainment areas *an 8.3m x 5.8m powered garage/workshop with a remote door and vehicle access *double carport *low maintenance established gardens *and a prime East Sale location. These are just some of the highlights that you will see on your inspection and the property has been maintained to the minute!
