\$150,000

This is so much more than a church - it's a lifestyle which is supported by a great local community. Spread over four separate titles with 4,048m² (1 acre) of land including established gardens fed by town water, is an opportunity to lead a more simplistic life and unveil the true potential of this classic building. Currently set up as a studio with large open living areas which includes kitchen, it's an opportunity to add your own personal touch and make this your home. Spend your time in the abundant kitchen garden as the chooks help create a more fertile soil, and the sounds of birds and native wildlife from the adjoining reserve add to the restful atmosphere. Did someone say "tiny home"? The time for change is now. From all of us at Glenn Preston Real Estate, we wish you every success in your search for your home. If you would like more detail on this home or to chat about one of the many other properties we have available please call or email us today.
