\$495,000

Fully renovated, filled with light, and full of added extras, you haven't seen apartment living like this before! Enjoying the quietest, leafiest rear first-floor position of the tightly-held Mandalay group, this two-bedroom apartment combines whisper-quiet solid-brick and suspended-slab construction with a value-added renovation for today. Fully re-floored with hardwearing sustainable bamboo-boards, this spacious apartment features a stylish neutral kitchen with new electric European appliances (including a Bosch dishwasher), a light bright bathroom with updated fittings and, most impressively of all, a grand feature electric-fireplace adding to the warmth of the window-walled lounge. Classically styled with a sparkling chandelier, pretty picture rails and quality block out blinds and sheers for almost every window, this treetop apartment has the added advantage of stylish ceiling fans, big built-in robes and wide windows adding to the excellent natural light. This well-appointed apartment even has its own separately-titled carport in direct sight in the group's lush native-style gardens! An invaluable lock-and-leave lifestyle investment just 500m to the shops, café-society and station at Martin St Village, this value-added apartment has Gardenvale Park around the corner, the North Rd bus-route at the end of the street, and the CBD within an easy road, rail or bike commute. For more information about this impressive apartment contact Stefan Delyster or David Seeber at Buxton Sandringham.
