\$502,000

Appealing to a broad market this exceptionally neat townhouse would make an ideal low maintenance downsize option or perhaps even affordable first home. Also easy to let out at \$400per week it would represent a great return on your outlay. In a larger complex and tucked away from the street it gives you quiet and privacy yet security knowing there are others around. Importantly giving you the 3 bedrooms it also has the double garage and feels more like a small house with the central hallway. That then opens up to a really decent sized living , kitchen and dining room overlooking the neat and managable yard. Just enough to entertain but not too much to look after it is neutral in tonings and modern in style. Perfect to live in, ideal to let out.
