If it's private, peaceful and spacious living you seek, this proud multi-level family residence with a resort twist is your wish come true. Standing tall at the top of a quiet court with established natural beauty all around, the luxury of three separate living areas and four spacious bedrooms translates into enhanced everyday family functionality. What's also sure to please is the manner in which the lower ground-floor layout can be used to accommodate extended family members or privacy-craving teenagers with its spacious bedroom, powder room, fireside living area and separate entry. Beautiful indoor-outdoor aspects and soothing outlooks are assets of the ground-floor family living and separate open-plan living, while a central kitchen with stone benchtops, plentiful storage and stainless steel appliances is a statement of quality and functionality. Enjoy a dip in the solar-heated in-ground swimming pool that enjoys pride of place in the tranquil backyard featuring extensive paving. Featuring an oversized main bedroom (with beautifully renovated ensuite), open study, laundry with drying deck, double garage, ducted heating/cooling, abundant storage, and beautiful gardens, it's an inspired lifestyle upgrade moments from Eltham Village, Eltham train station, parkland and schools.
