Polished to perfection with a sophisticated recent renovation, this beautiful family home delivers a spacious floorplan with a list of hard-to-find highlights. First up is the vast 1,133sqm (approx) of premium Bayside land, next is a large indoor pool/spa and lastly, a versatile freestanding studio complete with bathroom. All this is on top of the glorious accommodation which features a tranquil formal lounge (gas fireplace) giving way to a dedicated office as well as a welcoming family/dining zone that opens out to the poolside patio. Right at the heart of the layout is a gourmet kitchen boasting expanses of premium stone and quality stainless appliances - tucked in the huge island bench is a cool pop-up power point which nods to the attention to detail that has been taken. The master suite is decadent and spacious featuring a huge walk-in robe/dressing area plus stunning ensuite with bath and vast twin stone vanity - the two further bedrooms both with fitted robes and views of the deep lawned garden share a very stylish second bathroom. A laundry with yard access plus gas heaters and split systems are also offered along with considerable garden storage, secure carport and substantial parking behind a remote gate. Approximately 20 minutes on foot to both Hampton and Sandringham train stations, cafes & shops, a quick walk to the primary school and near parklands, this is a family lifestyle that will be the envy of your friends.
