A tastefully renovated 3x1 home on a huge 1000m² block sounds pretty impressive right from the start! Internally the kitchen has had a facelift, along with the flooring throughout and all your heating and cooling options are covered for whatever the weather is doing! Externally there is a massive frontage with a u-shaped driveway for ease of access and ample parking. Out the back there is obviously plenty of yard being such a big block, the decent powered shed is already there so all that is left to do is sort out the side access! Situated at the end of Carcoola Avenue keeps passing traffic to a minimum and with public open space basically across the road this property really has everything you need!
