\$1,012,500

With its proximity to Waverley Christian College, Westfield Knox and Eastlink, there's something very special about this location on Carol St. Having 10 parks on the block make this one of the leafiest parts of the suburb. Beautiful light from the property's north facing aspect enriches the entire home with bright energy. A modern refresh of the interior presents fresh kitchen and bathrooms in on trend 'greys', elegant floating floors underfoot, and energy efficient LED lighting adding to the gorgeous light across the fully renovated family home. The single level layout offers young families 4 zoned bedrooms, 2 bathrooms, and a central living and dining space connected to the Fotile-appointed kitchen. The block itself offers potential for future growth with a tree free 600sqms (approx.) with lawn at the front and rear that gives you a blank canvas to landscape or consider the potential for development (STCA). With Scoresby now attracting attention from its shiny neighbours in Wantirna, there's scope here to get in while the median house value is under \$1million to take full advantage of the impressive schools, shops, sporting facilities and transport connections of this quiet achiever in the outer east.
