**\$1,200,000**

Boasting an elevated ocean outlook, this home is ideal for the large family. Set in a quiet cul-de-sac overlooking the bay. Quite often the term is used "They don't build them like this anymore" This magnificent home ticks that box! • This 4 bedroom home is a one owner and has been master built with no corners cut. • Open plan living areas, huge kitchen for the family to gather. • The love of views; a design to showcase the coastline vista from multiple decks. • The love of privacy; with a separate bedroom and lounge area with its own private entrance. • This home has been respected and lived in lightly as a private holiday home. • Stunning timber floors, light filled living areas. • Separate living downstairs that could be a granny flat or teenager's retreat. • A big 3 car garage with workshop space or gym area. Close to transport, shops, schools, walking trails and surfside beach, it provides convenience in a stunning location. Rarely will you find such a well-presented home offering so much potential in such a fantastic location.
