\$380,000

Only 140 metres from the Bike Park entrance, this modernised home is perfect for someone keen on getting into the Maydena market, without having to undertake costly renovations. This wildly popular adventure hub on the edge of the stunning Southwest Wilderness has become a magnet for outdoor adventurers from around the world. With mountain biking, spectacular bush walking and trout fishing in the world-renowned Tyenna River, the town is a very busy location. This property would be well suited to short stay accommodation which is popular in the town for investors. The house itself consists of three bedrooms, a comfortable lounge room with a large woodheater, and both a modernised kitchen and bathroom. With a sunny relaxing deck off the lounge, the home has been opened up nicely. The home has had several significant updates including floor coverings, electrical updates and plumbing. There is good storage space under the front of the house and the back yard is well fenced. The new carport and garden shed are great bonuses. The property can be viewed via booking a Private Inspection. For further enquiries please contact Hayden from Derwent Real Estate.
