\$400,000

Whether it be a home to live in or a home to invest in, the low maintenance brick veneer homes are ticking all of the boxes and becoming very sought after. With concrete stumps and aluminium windows the homes are what we call almost bomb proof. They stand the test of time and get the tick of approval from most building inspections. 10 Monash Drive offers all of that and some. With stylish renovations over the years including kitchen, bathroom and laundry you will move in, unpack and enjoy for years to come. New heating and cooling, robes in all bedrooms, ceiling fans throughout, as new carpet and an extremely well maintained, secure yard. Act now..... this one is priced to sell.
