This calm and complete single-level home has recently benefited from a series of improvements which, while respecting the property's original design, have brought it more in-line with modern tastes. Most notably, the casual meals area now benefits from new polished tiled flooring, which frames a fully-remodelled kitchen complete with stainless-steel appliances, central serving island, breakfast bar, and high-capacity cabinetry. Supplementing these areas are the formal dining room, study/sitting room, and a living zone connecting to a front terrace through an entry foyer. Blessed with an abundance of space, the property also features an enormous east-facing backyard, its large alfresco area joined by a studio positioned at the rear. The garage functions as a workshop and comes with its own kitchenette. Features include three large bedrooms, two bathrooms, living room A/C, backyard shed, zoned ducted heating & refrigerated cooling, and secure off-street parking. Enviably positioned around the corner from Davies Reserve with the local bus to Oakleigh Mall just steps away, the home is ideally located near Clayton station, Huntingdale station, and The Links SC.
