\$520,000

Having undergone an awe-inspiring renovation offering function, flair, and practical living, this stunning, quality home sets a renovation benchmark above standard. Built in the days when home building was an art form, not just a business, this contemporary styled home oozes modern day flair, clean lines, and quality that you would expect in an exemplary display home. Some of the many features include fully remodeled bathroom with large open shower and modern vanity, clean functional laundry, 3 spacious bedrooms (all with built in robes), master having full ensuite, open living space, higher than standard ceilings, new modern appliances, 3 reverse cycle split systems while the works also have extended outside to the undercover verandah area with fully landscaped gardens, this home offers the convenience to turn the key, walk in, and enjoy!
