Located 40 minutes drive West of Denmark, this blank canvas of 132 acres enjoys a secluded position surrounded by National Park and fertile farmland. Consisting of a 40/60 mix of pasture to Jarrah & Redgum remnant vegetation, the property is split into two main paddocks, and has mains power running through it. A couple of water holes are available, with the potential to develop these further, but there are also other wetter areas of the block that could be tapped into. This is a great opportunity to secure a rural property on the South Coast, please contact Andrew on 0409081075 for further details.
