**\$660,000**

Botanica Lifestyle Resort is a new style of over 50s community called a land lease community (LLC). It is already extremely popular and proven throughout Australia with tens of thousands of residents in hundreds of communities. Cairns' over 50s will now have their first chance to experience this exciting new style of living. The Olmsted design is named after Frederick Law Olmsted, an American landscape architect who is considered to be the father of landscape architecture. He designed a succession of outstanding public parks throughout America, including the famous Central Park in New York City and the landscape surrounds of the United States Capitol. Olmsted was inspired by English parks and gardens and his new standards still influence global landscape architecture today. This Olmsted Contemporary is perfectly located just metres from the central facilities area and is sure to be highly sought after by the latest socialite making the move to resort style living.
