This beautiful three-bedroom home is one you don't want to miss! As you walk through the sun-filled living area you will find a wood heater, polished floorboards, and neutral colours which would suit any furniture. There is a dining space that opens out into the kitchen with a Bluetooth-enabled gas oven and hot plates as well as a dishwasher. The modern bathroom has to be seen to really appreciate the sophistication and planning that has gone into the space. A large walk-in shower and huge bath are two of the features. There are three good sized bedrooms, two having wall to ceiling built-ins, that even the most avid fashion collectors would be happy with. To top it all off, outside is a converted shed with polished floorboards which could be utilized in any number of ways, such as a second living area, bunkhouse, studio, or home office. As well as the wood heater in the living space to create a cozy environment the property is also fitted with ducted heating to ensure all rooms are heated throughout our cold winters. With an easy to maintain flat back yard, this property is just waiting for the perfect tenants.
