Constructed C1978 on an approx 1/4 acre allotment this property was an ideal opportunity for a first home buyer. Now that the by-pass has been completed the properties along the Main Road of Perth have certainly drawn more interest than in previous years prior to the by-pass completed. The home itself needed works to be completed to the interior which didn't sway buyers interest. Depending on the style of the property & price range an off market sale may be worth consideration if you are looking at selling so please feel free to contact me at anytime to discuss this further.
