Residing on an expansive corner block (955m² approx.), and in Mar Lodge area, this immaculate residence filled with original Art Deco intricacy showcases a second fully-contained dwelling, plus a combination of seven comfortable bedrooms, two neat bathrooms and the enticing opportunity to rebuild (STCA). Now on the market for the first time in 62 years, it's blessed with soaring decorative ceilings, luminous leadlight windows, hardwood floors, ducted heating/refrigerated cooling and toasty fireplaces. The formal dining leads to a spacious lounge, while the neat kitchen comprises a stainless-steel freestanding gas cooktop and oven, Bosch dishwasher and ample cabinetry. Step outside to discover an undercover entertainer's area, outhouse laundry/toilet, two sheds, rainwater tank and a nurtured veggie garden. Back inside, three restful bedrooms (two with BIRs) accompany the central bathroom. As for the second dwelling with its own private access, it features a front lounge, equipped kitchen/meals, four bedrooms, central bathroom, laundry, undercover carport for three cars and ducted heating. Presenting huge potential, it's perfect for growing families as well as discerning builders. Within minutes of elite schools, Essendon North Village, lively Keilor Road attractions, CityLink access and lush Woodlands Park.
