Spectacular in design, flawless in quality and luxurious in character, embrace a five-star standard of elite executive living inside this brand new four-bedroom townhouse. Built to an exacting standard by Belle Luxury Home Building Award recipient Concept Build and Sync Design, a favourable side-by-side design results in no common land, a private exposed aggregate driveway and a striking street frontage, while the luxury of two beautifully designed living areas, three glamorous fully-tiled bathrooms and two master bedroom options delivers a functional home suitable for a range of lifestyle needs. A magnificent entrance hallway that hides behind the custom 3m-high full-width front door with keyless fob entry sets the tone for the amount of wow factor inside this stunning home, which introduces the first of two master bedrooms before arriving at the vast fireside open-plan living. A showroom natural stone kitchen with Miele appliances is an entertainer's best friend, as is the undercover alfresco equipped with an outdoor BBQ kitchen. Three deluxe bedrooms are zoned upstairs with a hotel-style bathroom and north-facing retreat with views, while an extensive list of high-quality features that include square-set ceilings, double-glazed windows and sliding doors, manicured gardens and superior finishes help elevate this home to a class above.
