\$715,000

This stunning, double story, five bedroom home offers the perfect blend of space, comfort, and convenience. The upper level of the home opens up to a full wrap around verandah, filling the home with cooling breezes, also ideal to soak in the rural views. Upstairs is the main living level of the home and offers three good size bedrooms, the modern kitchen complete with stone benchtops, a separate dining and cosy lounge room. Timber floors throughout, fireplace, ceiling fans and ducted air conditioning complete the picture. Down stairs there are two bedrooms, a large versatile studio space, second bathroom and a huge double garage. The flexibility of the home makes it perfect for multi-generational living, guests or those working from home. Situated on a large block, you'll have plenty of outdoor space to create your own oasis or entertain family and friends. With a great rural feel, the best part is, this property is just minutes away from town, providing you with easy access to all the amenities, shopping, and dining options you desire.
