\$632,000

Set along a quiet cul-de-sac, this property offers contemporary convenience and original floor plan elements, articulating itself as a relaxed and refreshing coastal retreat. Its north-facing lounge benefits from a vaulted ceiling, joined on the southern-axis by an informal dining room. Intersecting these two living spaces is a functional kitchen with wraparound preparation benches and an original design that beckons refreshment. The two bedrooms come with BIR and share a main bathroom. Further floor plan features include a full-sized laundry, living room AC, external awning, carport, front garden and rear lawn area for multi-setting entertaining. Set between the wetlands and Chelsea Bicentennial Park, live within walking distance of the cultural commons of Chelsea central and Chelsea railway station.
