\$1,405,000

Designer style meets incredible space and superior family functionality at this impressive 4-BDR, 2.5-BATH home in a quiet yet amenity-rich pocket of Bundoora. Sprawling across two vast, light-filled levels and sure to meet the demands of families of all ages & stages, among its many highlights are multiple living areas - both formal and casual - a chic and sophisticated entertainer's kitchen with stainless steel appliances and a flexible study or additional living space. Twin walk-in robes and a beautiful ensuite bathroom are the heroes of the first-floor master retreat while the remaining bedrooms all boast built-in robes and share a gorgeous family bathroom - there is even the bonus of a family room upstairs giving the kids somewhere they can call their own. Elevated by warm hardwood floors and plantation shutters, the home also offers a raft of requisite practicalities including ducted heating and cooling, split system heating/cooling, an alarm, a full laundry and guest powder room along with a double auto garage. Outside, discover a fabulous alfresco area amidst easy-to-maintain gardens on the home's generous allotment of approx. 578sqm. Completing a truly appealing family-focused package is its proximity to various shopping destinations including Uni Hill, Polaris and Bundoora Square as well as the area's schools, public transport options, parks, recreation and the Ring Road.
