\$1,960,000

A bold, sculptural composition of timber, stone, and striking architectural elements - artistic vision & quality components bring both aesthetic & material interest to every space. A timber blade runs across the first floor, encompassing multiple spaces for living, dining, and entertaining - underlined by the seamless interconnection between inside and out. A courtyard staircase grants rear access onto Jacks Way. The main family areas include an elegant palette of polished timber and square-set joinery, offset by a luxurious stone-capped gourmet kitchen. Adding to the lifestyle allure is a ground floor theatre, in-built fireplace, staircase chandelier, and numerous alfresci. Occupying the second floor, three bedrooms with BIR & A/C share a fabulously appointed family bathroom. Discreetly positioned along the eastern axis, a parents' retreat features a sitting room with desk, substantial WIR, luxe ensuite, and adjoining retreat. This property addresses its lofty site with canopy views and uninterrupted city vistas. Its prized residential quarter is highly sought after, interwoven among bike paths, sportsgrounds, and picturesque winding boulevards.
