From \$735,000

Step inside and explore this inviting & homely residence that oozes character & chic! GJ Gardner built in 2018, this welcoming single level floor plan consists of four bedrooms plus 2 bathrooms (master with ensuite) all adorned with fans, air-conditioning (the home is powered by a 5.5kw solar system) and built-in robes. Each bedroom contains its own unique vibe which adds to the character of this home. On trend kitchen with subway tiles is the centrepiece of the home for inside entertaining. The living space is drenched in natural light and provides a beautiful outlook onto the landscaped gardens. Situated on a 730m² block, every inch of this property has been carefully manicured to create a useful zone – from dedicated firepit area to double gate side access for the boat, maybe even a pool in the future. Enjoy wandering around the gardens, checking on the fruit trees - bananas, lemons, passionfruit, and mangoes. Allocated outdoor dining area opens to lush rainforest foliage, delivering an ever-changing view and privacy with no rear neighbours! Moving to the front of the home, the street is friendly and welcoming with quality neighbours, all while being in close proximity to Airlie Beach township. Situated in a quiet court location where sales are few and far between, first home buyers, small families or downsizers – this is a must-see home.
