So, we couldn't resist using the Tortoise and Hare (Street) analogy! Honestly though, it's a crazy enough market for homes in general, let alone a cracker like this one, you will in fact need to be as quick as a hare to get your ducks in a row and ready to rent it! Set in a superb location with 4 bedrooms, this property would be ideal for anyone who wants stylish and comfortable living whether this is your first or forever home. Gas cooking, ample storage and a suite of quality appliances will make any budding cook happy with this oversized kitchen. Ducted air-conditioning will ensure year-round comfort while solar panels are a great way to save some extra money. The bedrooms are spacious and come with built-in robes while the master bedroom enjoys a walk-in robe and a well-appointed ensuite. Outside is a covered alfresco with a gas point and a pool for endless summer fun. Also featured in the property are a shed and a two-car garage while the central location places you just moments from schools, parks and North Lakes Westfield for a host of shops and amenities.
