With a lovely sunny outlook and fresh paintwork throughout, this home welcomes you from the instant you walk in the door. Just around the corner from the vibrant centre of St Helens, but tucked away in a quiet cul-de-sac, this bright home offers super convenience for anyone wanting to live just walking distance to town, or to add a low maintenance property to their rental portfolio. With built-in robes in all three bedrooms, and new cabinetry in the bathroom and laundry, this home has had a meticulous face-lift inside and out. Heating and cooling are provided by the new reverse cycle air conditioner and a wood heater. New European appliances have given the kitchen a welcome update, and a new hot water cylinder means you'll be trouble-free for many years. The garden is neat and trim and has new fencing on two sides, offering a blank canvas to someone wanting to develop veggie beds or ornamental gardens. The single carport and 6x3m garage provide vehicle housing, with additional parking area provided in the front. St Helens is the (Tasmanian) East Coast's largest centre for employment, shopping, education, tourism, mountain biking, fishing, surfing, diving and nature loving. With the stunning Binalong Bay and the world-famous Bay of Fires being just fifteen minutes away, you'll love the lifestyle this area has to offer. To inspect this lovely home, please call me today to arrange a private viewing.
