The Vibe: Situated on Buderim's sought-after north-east escarpment, this architect-designed masterpiece boasts stunning panoramic ocean and hinterland views. With 5 bedrooms, 4.5 bathrooms, and a wealth of luxury features, this grand residence offers a level of opulence that rivals Beverly Hills. The impressive entryway with 18-foot ceilings sets the tone for the magnificence that continues throughout. On four levels, you'll find a granite kitchen with high-end appliances, spacious living areas, a fully equipped media room, a large games/dancefloor with a built-in cocktail bar and second kitchen, a gym/office, and a solar-heated pool. The opulent master suite on the upper level features a hand-cut marble ensuite with a hydro spa and dual massage showers. The residence is outfitted with top-notch features, including imported marble floors, state-of-the-art security, ducted climate control, and more. However, it's the breathtaking 270-degree vista spanning from Kawana to Noosa and the Sunshine Coast hinterland that truly elevates this property. With a perfect north-east aspect, the temperature is comfortable year-round. Set on a 928m² block with minimal yard maintenance, this home offers effortless luxury living.
