Type: House

Edward Carthew

\$1,100,000 - \$1,175,000

Comparing this property to other houses available we have SPACE. There are four bedrooms with easy potential to be five. This property has been specifically designed carefully and beautifully as an accommodation for AirBnB. It has a capacity to sleep 12 people comfortably. The outside of the home features a wide wrap around verandah. From the front deck there are magnificent views across a green pasture with Mt Tarrengower as a backdrop. This view will never be built out because of the land zoning. Inside you will find immaculate living areas, a large communal area with high ceilings, a dining area with a large Coonara wood fire heater. Off from this area is the second living room which features french doors that open out onto the front decking area and a traditional fire place. The upstairs area features rumpus room style area with vaulted ceilings and dormer windows allowing you to see for miles and out to Mt Alexander and Mt Franklin. This area also contains the second bathroom making it brilliant for a family or for guests. There is plenty of space underneath the house for storage and even more space around the house for potential shedding or a garage/carport. This is a house you must inspect to appreciate what is on offer. It would ideally suit a large family or people that love to entertain and have guests.
